

The Rose Hotel Gender Pay Gap Report 2024

Overview and Quartiles

For the purposes of this report, The Rose Hotel used June 11th 2024 as the snapshot date to measure data against. At this point in time, the Company had 165 active employees. The split at this date was as follows;

Male %	Rose Hotel	Female
41%	Total Employees	59%
50%	Senior Management	50%
50%	Departmental Management	50%

Split into pay quartiles, the splits are as shown in the table below;

Male	Pay Quartiles	Female
49%	Upper Band	51%
32%	Upper Middle Band	68%
50%	Lower Middle Band	50%
34%	Lower Band	66%

For the most part, the quartiles measure similarly against the total gender split. We can see that male and female representation in quartile 1 are in line with those holding supervisory or management positions.

Each quartile is the measurement of the genders of 41 or 42 employees.

The business has a fairly flat pay structure due to the nature of the industry, and as such many employees earn broadly similar wages. The top quartile therefore holds data mainly for employees at supervisory level and above, whilst the other 3 quartiles contain only minor differences in pay levels.

Pay Gaps

Summary

We are proud of our diverse workforce and pleased with the gender balance in our team. We continually review our salaries for employees in similar roles to ensure that there is fairness in how we pay our employees. Salaries are also measured against external benchmarks to ensure we are competitive.

We are committed to ensuring that opportunities for promotion and growth are available to all employees across the business, regardless of gender. We will continue with best practice recruitment procedures whereby gender is not a factor.
